LAYOUTS

Layout 1

Strength

- Dimension of the room is furniture friendly.
- Enough space for bed and its side table.
- There is ample space for a dressing area, a spacious wardrobe and managed to get a small study table with storage on the top.

Weakness

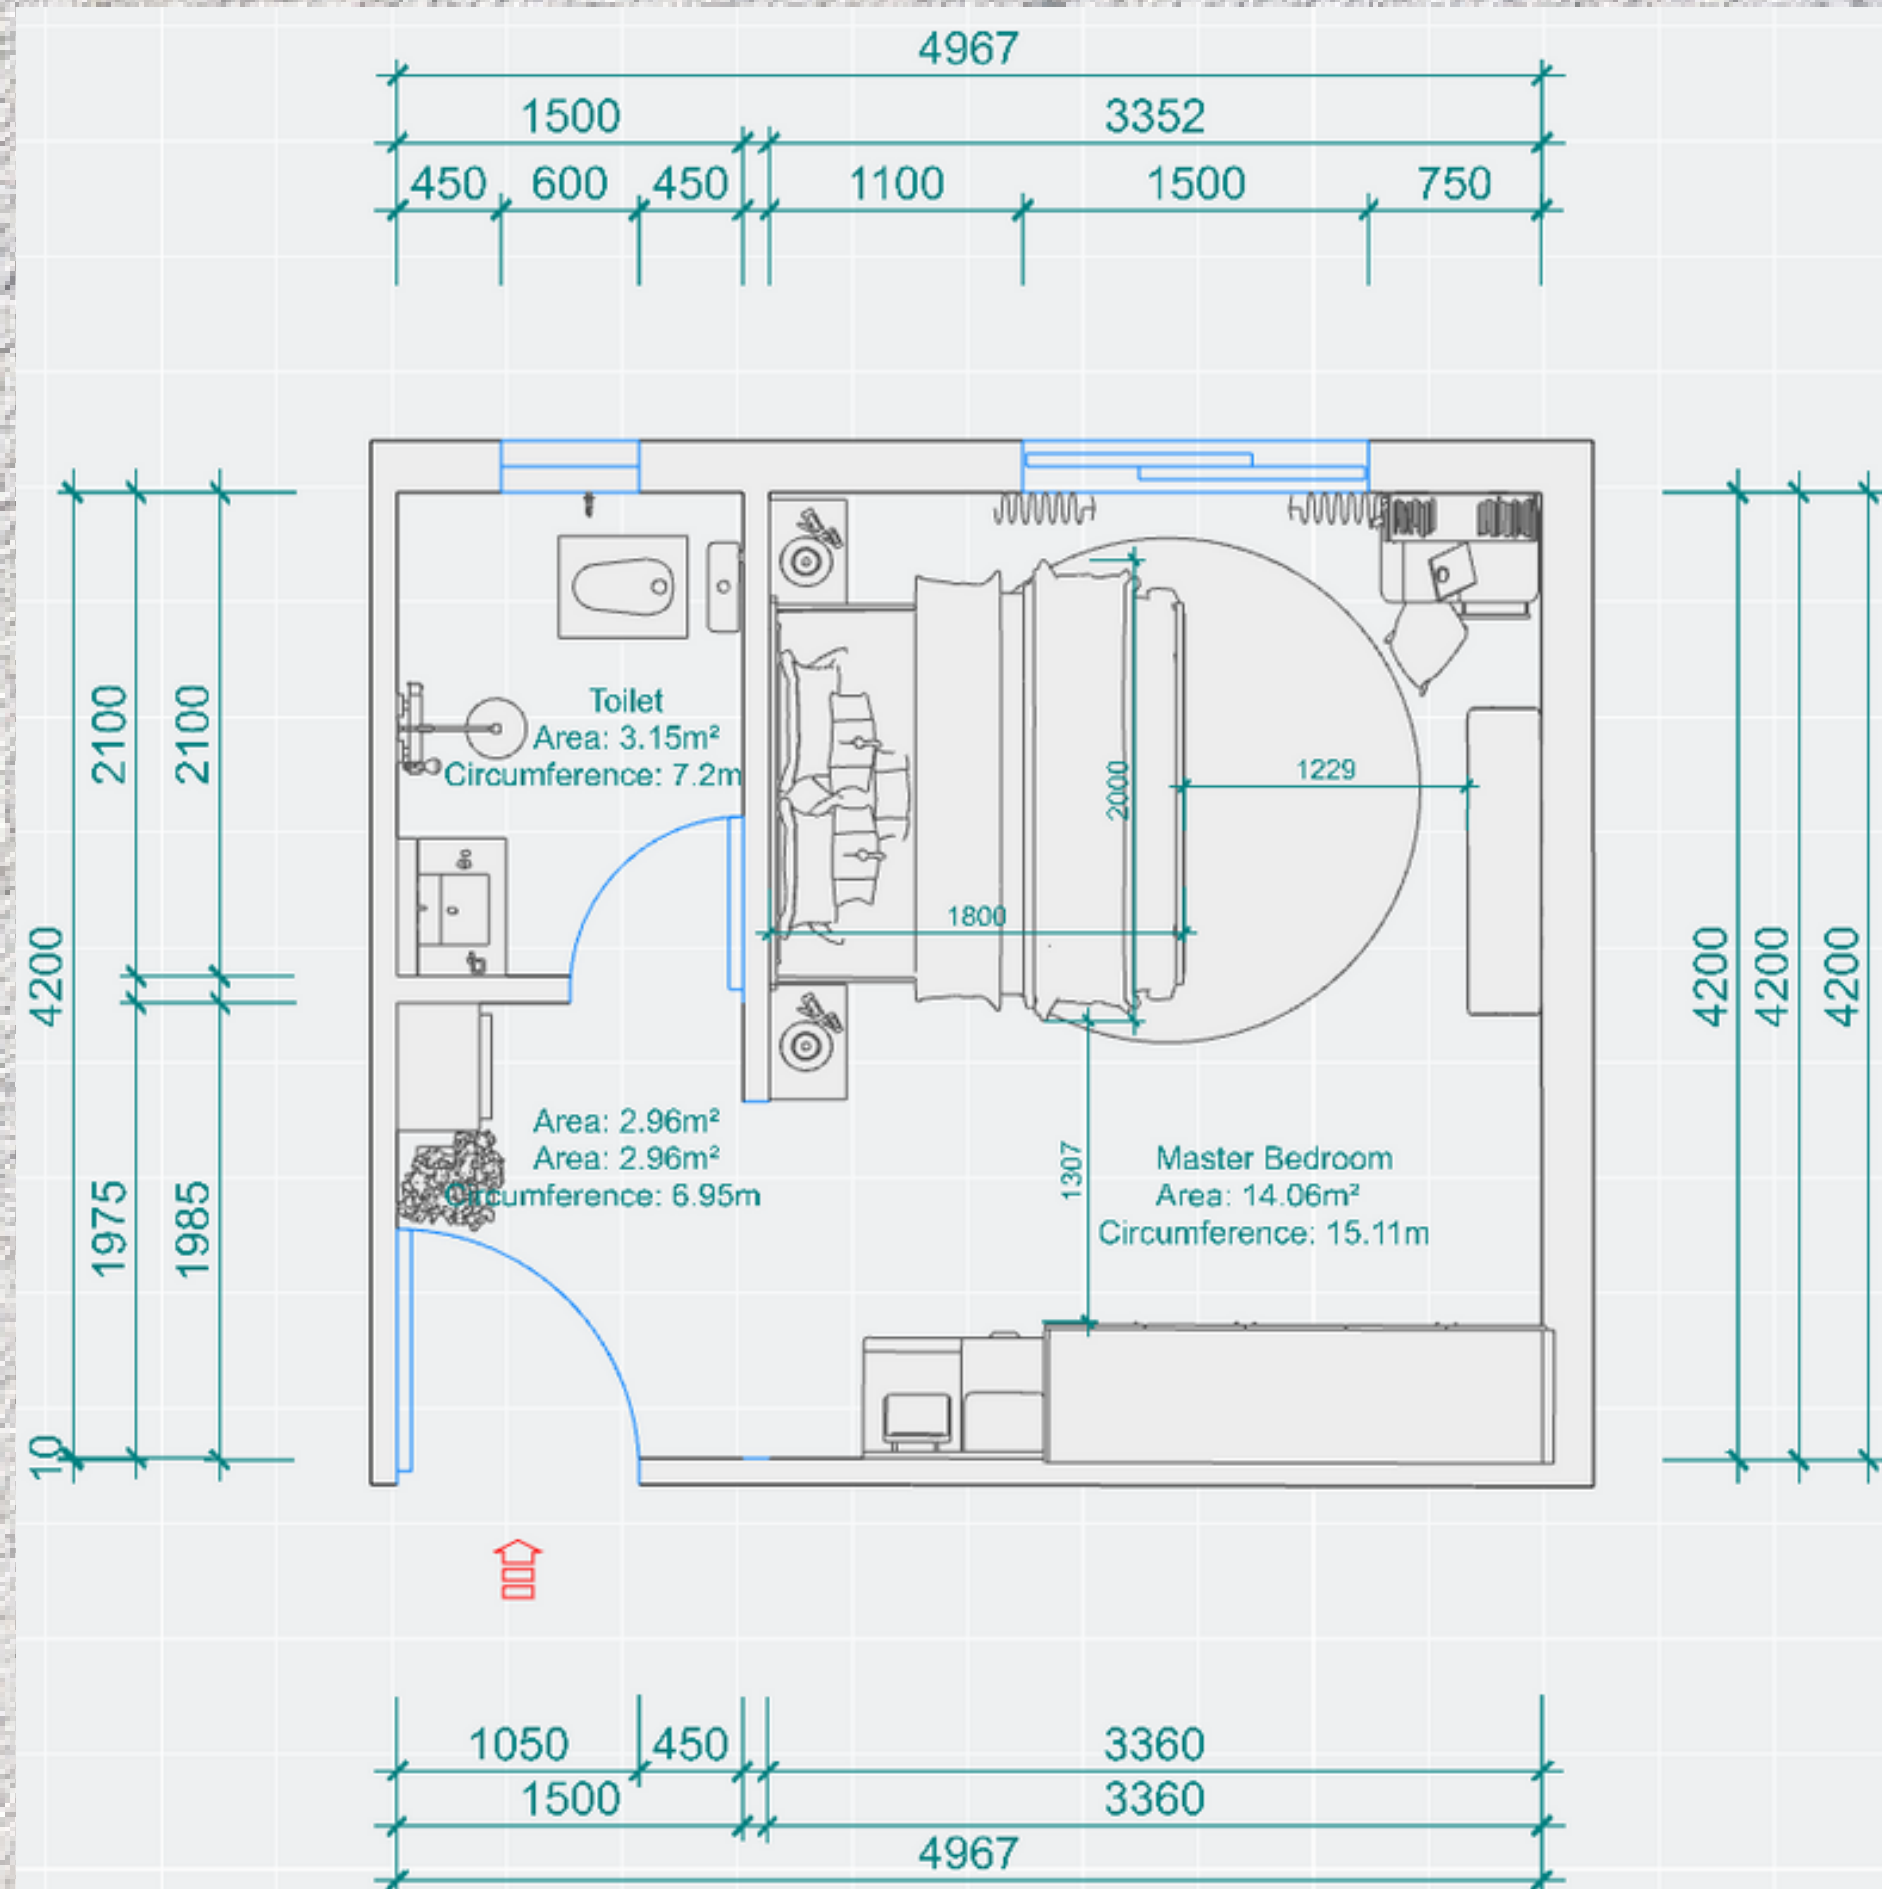

- Lack of space for a proper study unit as per the wall has a huge window.

Opportunities

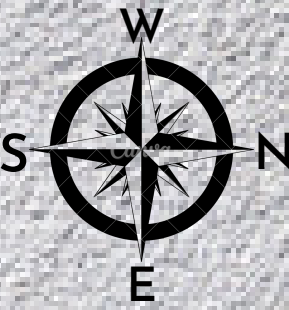

- Have a good circulation space in between furniture.

Threats

- The bed is situated on opposite of the bathroom wall so there is strong chance of seepage.

Layout II

Strength

- Dimension of the room is furniture friendly.
- Managed to get a small study table and storage.
- There is sufficient space for a dressing area and a commodious wardrobe.

Weakness

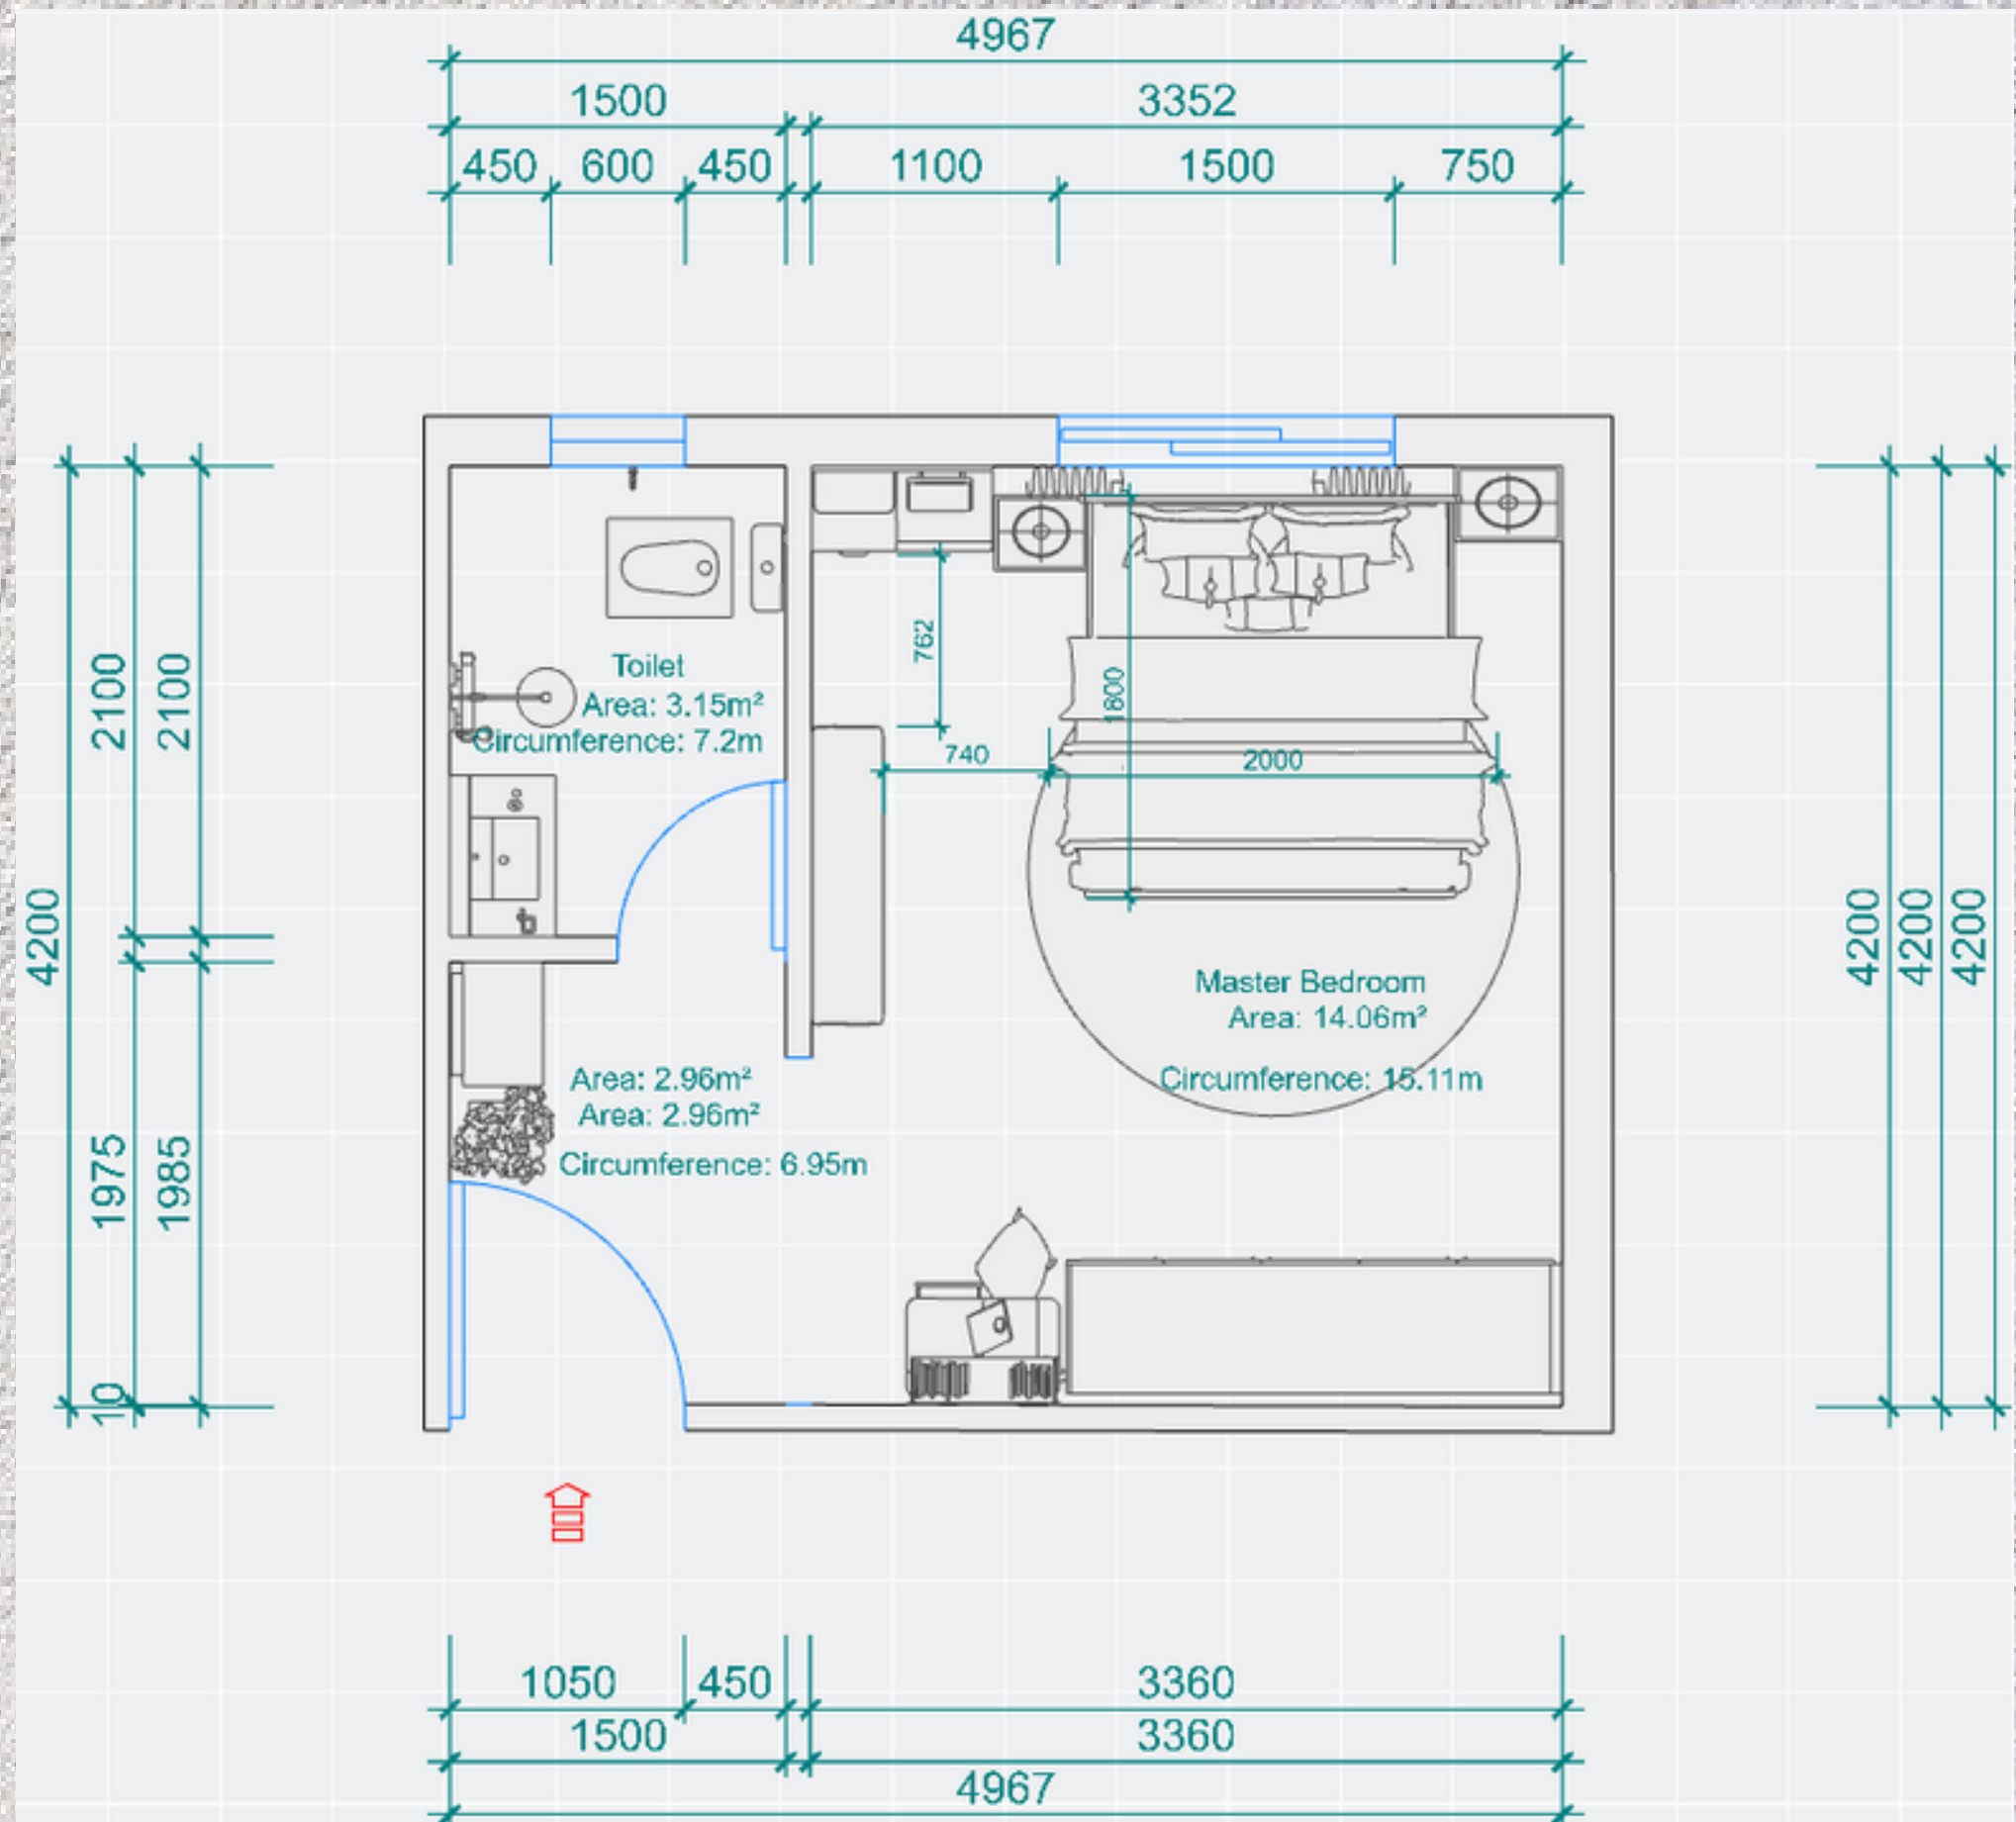

- Obstruction for natural light as per the bed headboard covered half of the window.

Opportunities

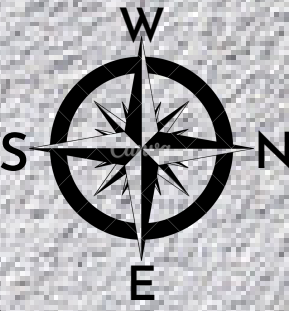

- Have a good circulation space in between furniture.

Threats

- Lack of natural sun light and air circulation /ventilation may lead to bad odor and fungal issues.

Layout III

Strength

- Dimension of the room is furniture friendly except the study table area.
- Enough space for bed and its side table and managed to get a small study table.
- There is sufficient space for a dressing area and a commodious wardrobe.

Weakness

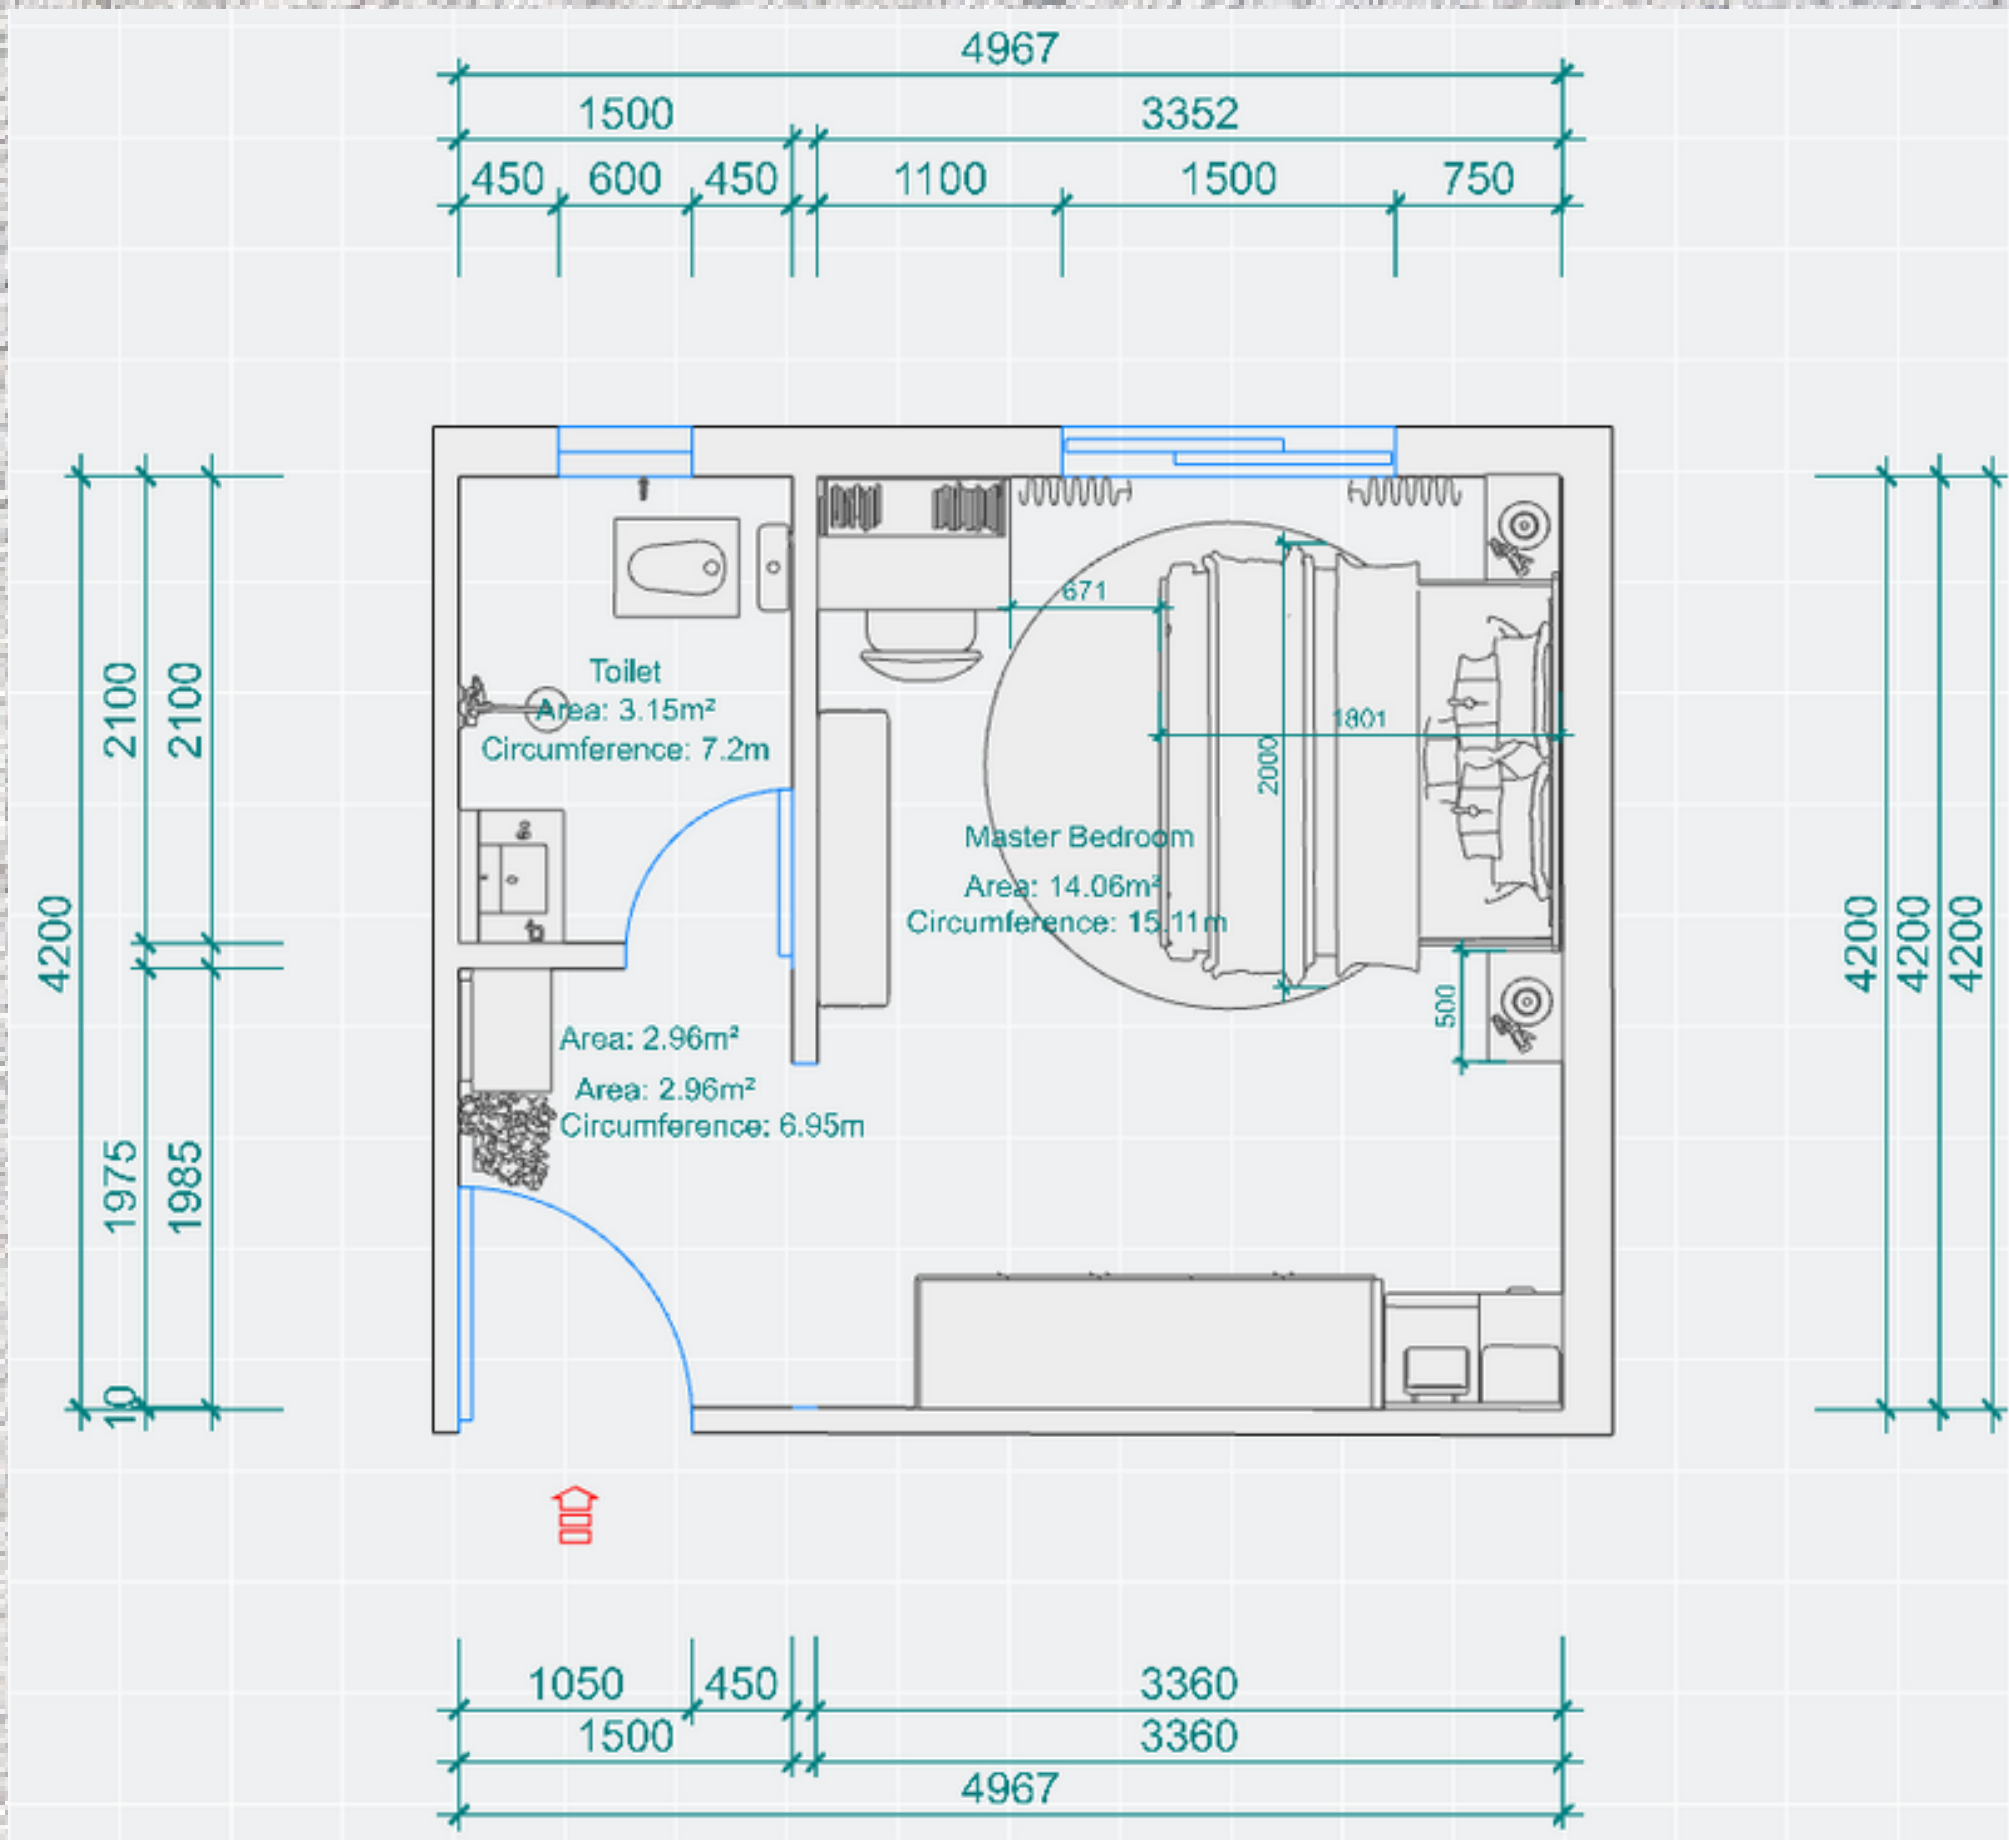

- There is a less circulation space in between bed and study table.

Opportunities

- Have a good circulation space in between wardrobe, dressing unit and bed.

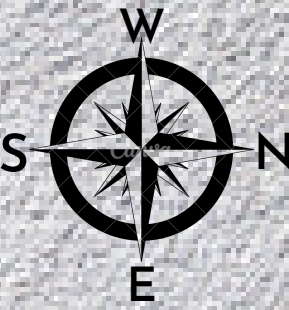

Threats

- There is a chance of getting hurt while passing in between the study table and bed.
